

## Featured Artist: Camille Fitterer

Dry Canyon Arts Association invites you to see the beautiful geological structures of artist Camille Fitterer at the Senior Center in Redmond during First Friday, September 2nd from 4-7pm. Camille is a Central Oregon intuitive energetic and geological artist; as well as a passionate rockhouser treasure finder and nature lover. She creates artwork that is inspired, uplifting, unique and one-of-a-kind. She uses her intuition and other senses to allow herself to be guided by the creative process as it unfolds in connection with Source Energy flowing through her infusing each piece with positive energies and vibrations.

“Each sculpture is created from my rockhounding treasures and is a mix of natural stones and stones which I have polished myself. Every stone is chosen intuitively as I am guided by the flow of Source Energy and it is fun to see how it all just comes together perfectly.

These works of art are excellent additions to your home, sanctuary, office or meditative process; as they all are created with the intention to enhance your space, as well as the body, and mind with the positive energies and vibrations of happiness, wellbeing, peace, love and harmony.”
