

# How to Submit a Link for the DCAA Website ‘Member Artists’ Page

The DCAA website has a ‘Member Artists’ page where members are listed. Members can choose to add a link next to their name that directs people to your own website so the public can learn more about you, your art, and have a way to contact you.

There are several ways to do this;

1. If you already have a website, send the link to [media@drycanyonarts.org](mailto:media@drycanyonarts.org). The link can also be from any of the various social media sites; Facebook, Instagram, etc.
2. You can create a free website for yourself and submit that link. There are many websites that assist you in creating a website that is little or no cost.

This is a partial list of sites where you can create your own website:

- Site123
- WordPress.com
- Websself
- about.me
- Wix
- Elementor
- WebStarts
- Weebly
- Google Sites

And, of course, you could do an internet search for “Free website builders”.

3. Make sure your link works and then send it to [media@drycanyonarts.org](mailto:media@drycanyonarts.org)
4. You are responsible for maintaining your information on the link. If you change where the link directs people, you need to notify [media@drycanyonarts.org](mailto:media@drycanyonarts.org)
